ABOUT ME

Computer Science student passionate about software development and backend engineering. I have a strong foundation in C#, Object-Oriented Programming, SQL Server, Data Structures, and Algorithms. Currently developing my skills in .NET and backend development through practical projects and continuous learning. I am a motivated and detail-oriented person who enjoys solving problems, learning new technologies, and building practical software solutions.

EDUCATION

Faculty of Computers and Information – Minia University
Bachelor of Computer Science
Expected Graduation: [2028]

TRAINING & COURSES

NTI – National Telecommunication Institute
Cloud Computing / Cloud Essentials Training

TECHNICAL SKILLS

- Programming: C#, C++, Java, JavaScript, SQL
 - Backend Development: .NET, ASP.NET Core, REST APIs, CRUD Operations, LINQ
 - Databases: SQL Server, Relational Database Design, SQL Queries
 - Web Technologies: HTML5, CSS3, JavaScript, Responsive Web Design
 - Computer Science: OOP, Data Structures, Algorithms, Problem Solving, Computer Networks, Operating Systems
 - Tools: Visual Studio, VS Code, SQL Server Management Studio, Git & GitHub
-

SOFT SKILLS

Problem Solving & Critical Thinking • Teamwork & Collaboration • Effective Communication • Time Management • Self-Learning • Adaptability

LANGUAGES

- Arabic: Native
- English: B2
